BY COMMAND:

A. R. PATRICK,
Provincial Secretary

Mr. Speaker entered the Assembly and took the chair.

His Honour the Honourable the Lieutenant Governor entered the Assembly and took his seat on the Throne.

His Honour then read the following Speech from the Throne:

MR. SPEAKER AND MEMBERS OF THE
LEGISLATIVE ASSEMBLY:

It is with pleasure I welcome you to this Second Session of the Fourteenth Legislature of the Province of Alberta. During the past year this Assembly has suffered the loss of two members in the deaths of Mrs. E. G. Robinson, Member for the Constituency of Medicine Hat, and Mr. James Lawrence Owens, Member for the Constituency of Didsbury. The sincerity and conscientiousness with which they applied themselves to their legislative duties won for them the confidence and respect of all who knew them. Their passing is a distinct loss to this Legislature and to the constituencies they represented.

More recently, all people throughout the Province were deeply shocked by the tragic school bus-train collision at Lamont which resulted in the loss of so many young lives and in serious injury to others. I am sure all the members of this Assembly will join with me in extending to the families who suffered such great bereavement our deepest and sincerest sympathy. My Government has taken the necessary steps to ensure a complete examination of all factors pertaining to this tragic accident and to the increased safety of school bus transportation throughout the Province. Special attention will be given to the elimination, as far as possible, of the hazards created by level and unprotected railway crossings.

During the past year factors beyond the control of this Legislature have tended to retard the pace of our economic growth and development. An excessively high price level, serious national trade deficits, pyramiding debt at high rates of interest

and widespread unemployment on a national scale are factors which cannot be ignored without seriously impairing the national economy and adversely affecting the level of prosperity to which our people have attained in this Province. Effective steps to correct this situation require wise decisions and positive action on the part of governments, management, labour and the public at large.

While the causes responsible for national recession can be removed only by effective action at national level, my Government intends to do all in its power to bring about the economic and financial reforms necessary to that end and to enlist the active participation of all citizens in this Province in the important task of controlling costs and curbing the current trend into further excessive debt.

Climatic conditions during the past year were generally satisfactory throughout the Province, resulting in an above-average yield of grain crops and adequate feed supplies for the all-time high volume of livestock currently on Alberta farms.

Increased services will be recommended at the current session to keep pace with the growing needs arising from this expansion of the livestock industry. Provision will be sought for the further development of community pastures and for programs to aid in the control of livestock diseases. A new Soils Act will be introduced providing authority to encourage practices for the conservation of soil resources. Amendments to The Eastern Irrigation Districts Act and The Water Resources Act will be presented for your consideration.

Your approval will be requested for the continuation of construction of trunk drainage systems in the St. Mary and Milk Rivers Development and the Bow River Development irrigation projects.

My Government's progressive program of forest protection and management will be continued, including new access roads through important resource regions of the Province.

Your approval will be sought for a capital works program in provincial parks and for a research program relative to the conservation and management of wild game and fish.

Having regard to the concern of municipal and school ratepayers as a result of the constantly increasing costs of elementary and secondary education, my Government will submit for your consideration a new program of school financing designed to distribute the burden of school costs in a more equitable manner and to provide more effective control over such costs. You will also be asked to approve amendments to The School Act and The School Buildings Assistance Act together with appropriations to commence construction of a Northern Alberta Institute of Technology at Edmonton and the new School for the Physically Handicapped.

As the third phase in my Government's Five Year Development Program, you will be asked to give special consideration to

matters in the field of Public Health. Construction of a new Provincial Hospital at Calgary together with a Diagnostic and Referral Centre will be proceeded with during the coming year. An extensive program to provide Auxiliary Hospitals, authorized under legislation passed at the last session of the Legislature, will be carried out.

In the field of Public Welfare, plans will be outlined during the session for a comprehensive program designed to relate welfare assistance more closely to individual need. Those who are currently recipients of Mothers' Allowance, Disabled Persons' Pension, Widows' Pension or Supplementary Allowances, will be given an option of continuing under the provisions of the present legislation or, alternatively, receiving the social allowance benefits provided under the new program.

Amendments to The Child Welfare Act will be submitted for the purpose of clarifying administrative procedures.

Construction of homes for senior citizens, which was the initial phase of my Government's Five Year Development Program, will be proceeded with in the two major cities during the ensuing year.

In the field of Natural Resources, necessary amendments to The Mines and Minerals Act and to The Oil and Gas Conservation Act will be submitted for your approval. Having regard for new and changing circumstances, my Government, in cooperation with the petroleum industry, proposes this year to make a comprehensive study of existing legislation and regulations pertaining to the exploration, development and marketing of oil and gas resources. The objective will be to revise such legislation and regulations, where necessary in the light of circumstances now prevailing, to ensure the continuation of a sound and efficient development program in the best interest of the people of the Province as a whole.

My Government intends to continue the program of street paving, sidewalk construction and the provision of recreational facilities carried on during the past year in towns, villages and hamlets as the second phase of the Five Year Development Program.

You will be asked to provide the necessary funds to continue modern highways construction, including divided multi-lane arteries. Provision will be made for additional campsites and improvements to existing campsites along our roads, which facilities have proven most popular with the travelling public.

A major expansion program is proposed for the coming year by the Alberta Government Telephones. While continuing its dial conversion program to all centres, the department will place emphasis on the improvement of services to farm communities by stimulating the growth of Mutual Telephone Companies and by providing better services to small settlements.

An extensive program of necessary Public Works is planned including additional administrative, educational and institu-

tional buildings and hospitals. To assist in alleviating unemployment, my Government intends to make contract provision for work to be done, whenever feasible, during winter months.

Comprehensive studies have been conducted during the past year with the objective of devising a more equitable distribution of the burden of taxation on real property. To this end, legislation designed to broaden the tax base and establish a more equitable basis for real property taxation throughout the Province will be submitted for your consideration.

Amendments to various statutes affecting municipalities, designed to further facilitate and improve their administration, will be introduced for your approval.

The operation of the Alberta Municipal Finance Corporation will be continued during the ensuing year. Every effort will be made to obtain funds at the lowest possible interest rates and to restrict borrowings to essential capital projects. Opportunity will be afforded Alberta citizens, through the Provincial Treasury Branches, to invest in debentures issued to finance essential projects situated in this Province.

You will be asked to consider a new Expropriation Act providing for more uniform and equitable procedures for expropriation of land.

Reports of two special committees established by the Legislature to study revisions of The Workmen's Compensation Act and to recommend a general redistribution of electoral representation in the Legislature will be submitted for your consideration and action.

The Public Accounts for the last fiscal year together with Estimates for the ensuing year will be submitted for your approval.

I leave you now to the business of this session in confidence that you will discharge your duties and responsibilities in the interests of all our people. I pray that Divine Providence will guide and bless you throughout your deliberations.

His Honour the Honourable the Lieutenant Governor then retired from the Assembly.

The Order of the Day being read for the question standing in the name of Mr. Gainer:

Ordered, That the said question stand as an Order of the Assembly for a Return showing:

What was the result of the Government's study into the feasibility of enacting Legislation which would guarantee to workers within Provincial jurisdiction the right to pension benefits and provide a system whereby pension funds and benefits could be transferred from one company to another when an employee changes jobs?

Mr. Watkins asked the Government the following question of which he had given notice and which was answered by the Hon. Mr. Hooke:

Q. Is the Minister aware that at the recent election in the former Municipal District No. 49 electors were able to vote in any one of four polling stations within each division without check as to whether they had voted before in that election and whether that practice is in accord with the terms or intent of The Municipal District Act?

A. Section 25 of The County Act states that the provisions of The Municipal District Act in so far as they are not inconsistent with The County Act, apply to every county.

Section 91 of The Municipal District Act provides that every elector must vote in the division in which he is qualified. There is nothing in this section to indicate that he must vote at a specific poll.

Section 116 (1) of The Municipal District Act states that the Secretary-Treasurer shall arrange the list of electors according to electoral divisions. There is nothing in this section requiring the Secretary-Treasurer to make up the voters list by polls.

Section 195 (1) (f) states that no person shall apply at one election for a second or subsequent ballot paper having voted once and not being entitled to vote again at the election.

Section 195 (4) (b) of The Municipal District Act states that a person who votes more than once at one election is guilty of an offense and liable on summary conviction to imprisonment to a term of not more than six months or to a fine of not less than fifty dollars nor more than five hundred dollars or to both fine and imprisonment.

At the recent election in County No. 17 (The former Municipal District of Mountain View, No. 49) the Secretary-Treasurer made up one voters list for each electoral division and gave a copy of this list to each of the deputy returning officers at each of the polls in the division.

It would appear that there is nothing wrong in the election procedure as the responsibility of voting is upon the elector himself and if he votes more than once he is liable to the penalties as set out above.

There is nothing in The Municipal District Act requiring the deputy returning officer to determine whether the individual had voted at another poll in the same division at the same election.

If there were any procedures that were out of order any ratepayer has the privilege of contesting the election under the provisions of The Controverted Municipal Elections Act. Section 194 of The Municipal District Act states that where proceedings for contesting in any way the election under the Municipal District Act shall be taken under the provisions of The Controverted Municipal Elections Act.

Mr. Watkins asked the Government the following question of which he had given notice and which was answered by the Hon. Dr. Ross:

Q. The number of persons engaged full time in supervision and enforcement under The Alberta Pharmaceutical Association Act and whether it is considered that the number is sufficient for the proper regulation of the provisions of that Act?

A. The Alberta Pharmaceutical Association has an inspector who works full time in supervising drug stores under the

Alberta Pharmaceutical Association Act. In addition, the Registrar of the Association spends approximately one-half of his time in that type of supervision.

Under the Federal Narcotics Act, there is a full-time inspector checking on the use of narcotics and, under special circumstances, the Mounted Police are brought into this service. Under the Federal Food and Drug Act, there is also a drug store service which provides supervision in drug stores. However, this amounts to less than half-time of one person.

It is considered the above number is sufficient for the proper regulation of the provisions of the Act.

The Order of the Day being read for the question standing in the name of Mr. Watkins:

Ordered, That the said question stand as an Order of the Assembly for a Return showing:

Is it the intention of the Government to amend the regulations placing all nurseries under the jurisdiction of the Child Welfare Commission in such a way that those operating under the general supervision of a school board may do so undisturbed and if so when will the amendment be made?

Moved by Mr. Landeryou, seconded by Mr. Jamieson:

Whereas Canadian Municipalities are in urgent need of the finance to carry out many essential projects, and

Whereas Municipal borrowings in the open money market in competition with industrial and Commercial loans has become increasingly costly and difficult, and

Whereas Government borrowings of foreign capital requires large sums of money to be sent out of Canada to meet the interest charges thus decreasing the purchasing power of the Canadian people;

Therefore be it resolved that this Assembly urge the Government of Canada to instruct the Bank of Canada to provide loans to Municipalities at nominal interest for social capital needs.

A debate followed.

Mr. Watkins moved as an amendment, seconded by Mr. Gainer:

That all words in the Resolution after the word, "Canada", in the first line thereof be deleted and that the following words be substituted: "to consider the setting up a revolving fund for the provision of loans to municipalities for social purposes at low rates of interest".

Mr. Maccagno asked the Government the following questions of which he had given notice and which were answered by the Hon. Mr. Taylor:

Q. 1. Has the Federal Government made any funds available to the Province under the Roads to Resources program for the construction of a road to McMurray?

A. 1. No.

Q. 2. Has the Provincial Government made any applications to the Federal Government for financial assistance under the Roads to Resources program for the construction of such a road?

A. 2. The Minister of Highways, in a discussion with Federal Government officials in Ottawa on or about May 29th, 1958, requested assistance on four roads, all of which, in his opinion, came within the scope of the Roads to Resources program, as follows:

- (1) The Mackenzie Highway from Grimshaw north;
- (2) The road from Fairview to Hines Creek to Clear Prairie to the B.C. boundary;
- (3) The road from High Level to Wood Buffalo Park;
- (4) The road from McMurray north and south.

At that time the Minister was advised that a maximum of 7½ million dollars of Federal money only was available to the province. Since 300 miles of construction was involved on Highway No. 35, it appeared that the total allotment of \$15,000,000 would be required. Consequently, the Department of Highways applied for this sum to be expended on the Mackenzie Highway and then acceded to the request from the Minister of Northern Affairs to expend any balance remaining, after the Mackenzie Highway was constructed, on the High Level to Fort Vermilion road.

On September 24th, 1959, a letter from the McMurray Chamber of Commerce to the Minister of Highways indicated that the Federal M.P. for the Federal Constituency of Athabasca felt that the Federal Government would give favourable consideration to contributing to the cost of a highway from McMurray. The Minister of Highways consequently wrote to the Minister of Northern Affairs and National Resources bringing the "feelings" of the Federal M.P. to his attention and asking if the Federal Government would contribute to the cost of a highway from McMurray. The Minister of Northern Affairs replied stating that the available funds under the Roads to Resources program were already more than fully committed with the above two projects and that there was no way in which the Federal Government could help with this project.

Moved by Mr. Maccagno, seconded by Mr. Ansley:

Moved by Mr. Fimrite, seconded by Mr. McKinnon:

Whereas the paving of the Canadian section of the Alaska Highway is of major importance to the development of Northern Canada as well as to Alaska, and its completion will attract a substantial flow of tourists and commercial traffic from the United States and Eastern Canada; and

Whereas the Battle Memorial Institute, a firm of outstanding economists, after an extensive study, recently recommended to the Alaska International Rail and Highway Commission that the adoption of an integrated highway programme headed by the upgrading and paving of the Alaska Highway from North of Charlie Lake, B.C., to the Alaska border would not only pay for itself and the maintenance but would bring additional revenue to both North Western Canada and Alaska within a twenty-year period; and

Whereas the 730-mile corridor to Alaska through the Province of Alberta (the most direct route from continental U.S.A. and Eastern Canada) is now entirely paved.

Therefore be it resolved that this Legislative Assembly strongly urge upon the Government of Canada the desirability of entering into negotiations with the Government of the United States with a view to finalizing an Agreement for the immediate upgrading and paving of the Alaska Highway in Canada.

Whereas the paving of the Canadian section of the Alaska Highway is of major importance to the development of Northern Canada as well as to Alaska, and its completion will attract a substantial flow of tourists and commercial traffic from the United States and Eastern Canada; and

Whereas the Battelle Memorial Institute, a firm of outstanding economists, after an extensive study, recently recommended to the Alaska International Rail and Highway Commission that the adoption of an integrated highway programme headed by the upgrading and paving of the Alaska Highway from North of Charlie Lake, B.C., to the Alaska border would not only pay for itself and the maintenance but would bring additional revenue to both North Western Canada and Alaska within a twenty-year period; and

Whereas the 730-mile corridor to Alaska through the Province of Alberta (the most direct route from continental U.S.A and Eastern Canada) is now entirely paved.

Therefore be it resolved that this Legislative Assembly strongly urge upon the Government of Canada the desirability of entering into negotiations with the Government of the United States with a view to finalizing an Agreement for the immediate upgrading and paving of the Alaska Highway in Canada.

Whereas the Battelle Memorial Institute, a firm of outstanding economists, after an extensive study, recently recommend to the Alaska International Rail and Highway Commission that the adoption of an integrated highway programme headed by the upgrading and paving of the Alaska Highway from North of Charlie Lake, B.C., to the Alaska border would not only pay for itself and the maintenance but would bring additional revenue to both North Western Canada and Alaska within a twenty-year period; and

Whereas the 730-mile corridor to Alaska through the Province of Alberta (the most direct route from continental U.S.A. and Eastern Canada) is now entirely paved.

Q. 2. If so, with whom is the contract and what are the general terms?

A. 2. Contracts for services on our microwave installations exist with the Canadian Broadcasting Corporation through the Bell Telephone Company on behalf of the Trans-Canada Telephone System for television program network for eight hours per day, plus other time that may be contracted for with the Department of National Defence, the Canadian National Telegraphs and the Alberta Gas Trunk Line for message circuit leases and private line services.

Q. 3. How many microwave towers are there in the province?

A. 3. There are sixty-six microwave towers on the A.G.T. systems.

Q. 4. Are these microwave towers used for any other purposes than to beam T.V. programs and if so, what are the other purposes?

A. 4. The use of microwave towers for TV programs is of secondary importance. The main use for microwave towers is to carry voice circuits for long distance business and leased private line business.

Q. 5. Would it be possible for an enemy power or enemy agents to jam these beams, thus rendering them useless?

A. 5. It might be possible but extremely difficult to jam the signals of our microwave systems successfully. It is considered impossible to jam signals from a point outside Canada.

Mr. Watkins.

The motion was therefore declared carried.

The Order of the Day being read for the continued debate on the following:

Moved by Mr. Watkins: Seconded by Mr. Ansley:

Whereas the number of Provincial Departmental Committees and administrative tribunals that have authority over the freedom and property of the citizen is large and likely to increase

Now be it Resolved that this Legislature ask the Government of this Province to give consideration to the setting up in consultation with the Law Society of Alberta of a committee to survey the present number and powers of departmental committees and administrative tribunals and to make recommendations at or before the next sitting of the Assembly on what steps should be taken to protect the individual citizen against any injustice or oppression at the hands of such bodies.
